

# "10 Tips to Guarantee a Great Massage"

Kings Court is famous for the explorer's lounge and fresh new ladies!

We attract many guys who have never been anywhere before and lots of new girls who've never done anything naughty!

We are not looking for "experienced people" in either category!

## The point of view of a brand new Massage Girl?

She wants to please and has been trained to please.

She expects the client to have a good shower and be all clean, fresh and pink for his rub down.

She has been told to expect the client to touch her breasts, but only gently.

She expects that some clients will attempt to push her personal boundaries and she knows how to give a series of warnings to the adventurous client who may continuously ask her out.

She wants to learn about how different men will react to her touch and to try out the hot oil. She will massage for about half of the period of time on the client's back and then roll him over to do some of the front and then proceed to do the last part. She expects he will give her some guidance with how he likes it but she doesn't like bad language.

She expects the client to have a good opinion of her efforts and be so thrilled that he will come back another day.

## You will never forget your first time at Kings Court!!!

Lets view it from the POINT of VIEW of the new client who has never been to a sex place before.

Sometimes he acts a bit tough, talks loud, expects a root and says so . . . pretty soon he gets a lot of dark looks and shown out the door.

Lets start again . . . he's supposed to be nervous, however, he should relax and leave the rest up to us.

When you get to the reception give us a name so we can keep track of when it is your turn. If you haven't been here before, let us know, so we can tell you a bit about how things work.

When you settle in the lounge area our ladies will come by and say hello. If it is a quiet time, there will be more ladies than you can handle and you will be swamped with names to remember. Don't worry because one of our managers will guide you with the booking and the prices.

If it is busy you will notice that ladies introduce themselves to others while you wait. This is because we have a queuing system based on the time you arrived.

You will get to the top of the queue and then get first refusal as each lady becomes available. The manager will assist. This is fair and it stops regulars from taking ladies who are in bookings. Your place in the queue is respected.

Some of the ladies are shy. They are not champions at talking in the club-area, however, you will find that they are quite nice when you are alone.

## It really is a massage and a hand job!

In nearly all sex places in the World it is common for everyone to pretend it is about massage and then, when you get to the room, it really is about sex.

NOT SO at Kings - It really is a Rub'n'tug or as the Americans say a "Steam and Cream" or as the Asians say "A naked massage with a happy ending."

Sometimes our visitors do not believe we only offer a massage service and sometimes ask to see the rooms because they are expecting beds.

Recently, a nice guy was dropped off, by his friends on his way to the airport. They had urged him into thinking it was a full service place. By the time we had it all sorted out he had no time to go elsewhere so decided to have a spa and a massage. He couldn't believe he had found a place this good. A massage is surprisingly much better than some men imagine!

When ladies apply for a start with us they quite often say they would NOT go to another place. They come to us because the advertising says "NO SEX" or because someone has told them we do not push the ladies to do more.

Some ladies don't mind if their friends and family know they work at Kings because they are happy within the bounds of the No Sex reputation. All our ladies become friends and share this ethic. If a new lady starts with us and she wants to offer more she is soon moved along to protect the reputation of the others.

Most brothels go to a lot of trouble to make sure that clients do not run into each other in the hallways. Having the big lounge area at Kings is different. The Kings Court visitor is usually not uncomfortable. Anyway, it's harmless fun for grown-ups, so who cares, it's only A NAKED MASSAGE with A HAPPY ENDING!

## The best time to arrive at Kings!

We open the doors at 9:30 am. Ladies start at a slow 10 am. (They are always fussing with make-up) If you are early you may be the first customer they get to see. Have a private spa/one hour massage for the discounted price of \$164.00 or if you want something nearly as good have a spa/45min for \$132.00. The half hour discount price is \$88 without the spa. There is no entry fee in the day.

The mid afternoon quiet time is around 1 pm to 2 pm when you will find most girls free and wanting company in the lounge area.

In the evening there is a new shift at 7 pm. The \$20 entry fee starts at 9 pm.

Evening traffic to the City is easy from 6 pm weekdays and not recommended between 7 pm and 8 pm on Fri and Sat evening.

## Talking in the spa, at Kings!

After a few weeks at Kings Court our ladies become good little talkers when sitting in the spas, even though many of them are rather quiet in the club area.

Men on the loose and out of touch with relationships find that talking in the spas is good therapy and frees up the tongue.

Some guys just want the talk to be "nothing of much consequence" and then give themselves over to the massage - they say it is a good way to step back from their busy daily life and relax. It's certainly a great boost to your business.

## How to "Make the best impression with a Lady"

If your friend came to you and said "I have a date with a nice lady - tell me, how I should act?" You would say to him "Be yourself, don't be a goose, don't pretend to be something you are not!"

Well, take your own advice. - don't pretend.

Often the massage lady says, "that guy was really nice, he was just natural."

She likes to talk about the normal things that happen in life, at the movies, or what's on TV.

The whole point of this is that you don't have to be a superstar - just act naturally and give the odd genuine compliment. I mean genuine. Australians have the best bullshit meters in the World. If it is a bullshit compliment you are being a GOOSE.

So just be yourself, and be nice!

## You have to prove you are NORMAL!

From time to time men put on an act and really misbehave or make degrading remarks. There is always a guy like this at a strip show. Most women have seen men at their worst at some time.

It is good to be aware that even when the ladies are happy serving you and being polite they are at the same time on the lookout to see if you are going to turn out to be okay or not.

It is best to set their minds at rest early and prove you are normal by being polite. They will be relieved when they realize you really are okay.

Most meetings have a hospitality ritual, which centers around the offering of a drink or beverage. Take this opportunity to be grateful and friendly. It is the moment, which leads to regular conversation. It's a getting to know you time. Believe me, it is the moment ignorant men cannot get past. Often a lady walks back to the bar saying "You should have heard what he just said!"

So, what I'm saying here is that because of the bad behavior of men in general, you have a great opportunity to be loved by women! All you have to do is some small talk while she has time to decide if you have a dark side. You can mention that you heard we serve a nice chocolate drink or perhaps ask for a juice in a glass. If she is appealing, why not ask her to join you in a drink.

## Tips

If you should wish to tip, don't tip early as there is an implication that she is expected to do extra. This actually distracts the lady and minimizes any extra effort, which might happen on her part. Ladies do try hard to make your stay most memorable, as they would like to have repeats from men they get to know. Not many men tip or are expected to. It is a big thrill for a massage lady to get a tip at the end!

"Buyers Remorse" is a real condition. For most men is a dreadful feeling that you have wasted the rent money yet again and that the lady is at fault. After the end bit this results in clients being curt and rude to a beautiful woman who has knocked herself out for them. Some men at this point are asked to not come back so - bear in mind you have just been chucked out of the best place and there is no return as the ladies all talk to each other. Be nice and if you intend to tip make sure you follow through - especially if you even hinted at it.

## How to "Make women think you are the one and only"

Ten years ago a young guy, Gavin, who worked on maintenance for us asked the above question. My answer was "All a man has to do in life is to make one phone call a day to the woman in his life." Gavin said "Fookin' bitch, I'm not gonna make no fookin' phone calls to no fookin' bitch."

I heard that he recently said "I had a really nice girlfriend, I'd still have her today if I had listened to John."

Another fellow said "You want me to say 'I looovvve you' on the phone."

I said that it's not that you say anything about love. It's about the call. Just make the call and say anything, "Would you like me to bring home milk?"

It's about satisfying her that you at least thought of her. Take away her feelings of insecurity. Boost her self-confidence.

Of course, at Kings Court you don't have to do anything, just be polite and if you enjoy yourself this will make her very happy. When a lady shows a client out and returns to reception we often say, "How did that go?" The best answer is when she grins and says, "He really enjoyed that!"

## So, Kings Court really is a Good place for New Clients to meet New Ladies!

Thanks for reading this far.

Now, if you are an experienced buyer in the Sex Market you will need to read on!

If you come to Kings Court you will have to adjust your expectations as it is really not like any other place.

## How to "Not act stupid with a Kings Court Lady"

The first thing a new lady learns is "The customer is not a friend of the boss!" Let me put that another way: If "Stupid" was an extreme sport "I'm a friend of the boss" would be way out there, on a long bungee, not tied on.

The most frequently said stupid thing is "I'M A FRIEND OF THE BOSS."

Almost as stupid:

My friend got sex here.

I got sex with your friend here.

I go out with girls from here all the time.

I can't come if you don't have sex with me.

It doesn't count if I put it in just a little bit.

It's your fault I'm sad for not having sex with me.

I don't want a massage, just play with my dick all the time.

I will be unhappy if I can't go down on you.

Everyone else does it.

Now, even though there is a little humour in this, you and I have gone to all kinds of places in our lives and said stupid things or asked the stupid questions. Hire car drivers say the most frequently asked stupid question is "Have you got a TV in there." This doesn't seem stupid to anyone else except a hire car driver.

## What if you run into a lady away from Kings Court?

She will be hoping you are discreet and that you don't even make eye contact. She is terrified that her two Worlds will collide. Ladies do, from time to time go out with clients but there are enough disaster stories around to put them off. Just do her a big favour and give her space.

It follows that clients who pursue working ladies will often end up with regrets and of course the last thing you want is to have Big John and the Police drop over to discuss your stalking.

## When things go wrong - it's your fault!

If she is upset in any way - it's your fault.

This is the whole point of it. The massage lady is sweet and delicate and happy to enjoy your company and willingly do the happy ending!

You have to do your part. Be nice!

There is no other ending other than the happy one.

It's a NAKED MASSAGE WITH A HAPPY ENDING!

## Use of any Language other than English!

The Kings Court rule - If you were born here in Australia use English only.

You may assist a friend from a foreign place but take care not to be rude or degrading, as language does not hide this. It is a good idea to not speak any louder in another language than you would in English.

Ladies from some countries will not see men from the same country because these men make it their business to stalk and harass these ladies for ethnic and religious reasons.

Phone replies to inquiries will not identify ladies from strong ethnic countries.

## Have a Shower even if you had one at Home!

Actually have a shower! The lady will know if you don't and will have a poor opinion of you. Have a good shower with lots of soap, as your skin will pink-up and absorb water, which assists the massage. You will also begin to relax. This provided a good basis for the best massage - there is a slight medical benefit also. Shower time is provided as extra time so make the best of it.

Massage oil will absorb and not be noticed within an hour after the massage as long as it is toweled or washed off.

Clients who are clean and without blemish are massaged with a naked touch.

So – once again Welcome to Kings Court Massage and have a nice time!

Big John
